Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary

Application No.

10/616,784

Applicant(s)

VAN ANTWERP, WILLIAM P.

Examiner

BRADLEY J. OSINSKI

Art Unit

3767

Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 13 June 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1,3-9 and 36-41 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1,3-9 and 36-41 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

Attachment(s)

- 1) ☒ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☐ Information Disclosure Statement(s) (PTO/5508)
Paper No(s)/Mail Date _____
- 4) ☐ Interview Summary (PTO-413)
Paper No(s)/Mail Date _____
- 5) ☐ Notice of Informal Patent Application
- 6) ☐ Other: _____

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1, 3-6, 8, 9 and 37-41 are rejected under 35 U.S.C. 102(b) as being anticipated by Gu et al (World Journal of Microbiology and Biotechnology).
 - a. Regarding claim 1, Gu discloses a catheter coated with a heavy metal (page 177) that is coated with lectins capable of binding microorganisms that form a biofilm on the surface of a medical device. The lectins are disposed in a biodegradable polymer of cellulose acetate in acetone (see Andradý and Applicant's specification) that is capable of sloughing away from the medical device when the lectin is bound to a compound produced by a microorganism. The conclusion of Gu discloses inhibition of biofilm formation on the surface of the medical device.
 - b. Regarding claim 3, Cellulose acetate in acetone is a biocompatible polymer that has a controllable rate of degradation based upon the various controllable factors of the polymer (degree of substitution, amount of solvent, etc...).

- c. Regarding claims 4 and 5, Gu also discloses silver ions as an antibiotic agent.
- d. Regarding claim 6, Gu discloses the microorganism *Pseudomonas aeruginosa*.
- e. Regarding claim 8, The device of Gu is capable of being implanted.
- f. Regarding claim 9, Gu discloses a catheter.
- g. Regarding claim 37, Gu discloses the catheter being made of various substances, such as the biostable polymeric material polytetrafluoroethylene (page 174)
- h. Regarding claim 38, See claims 1 and 37 above.
- i. Regarding claim 29, see claim 27 above.
- j. Regarding claim 40, see claim 1 above.
- k. Regarding claim 41, As the composition of Gu inhibits the attachment of *P. aeruginosa* to the mechanical structure relative to the mechanical structure not coated with the composition, it is apparent that the lectin is disposed on a region of the device having a mechanical structure that is compatible with the adherence of microorganisms.

Claim Rejections - 35 USC § 103

- 2. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Gu et al (World Journal of Microbiology and Biotechnology) as applied to claim 1 above, and further in view of Schrier et al (6,197,598).

- I. Regarding claim 7, While Gu substantially discloses the apparatus as claimed, it does not disclose the specific lectins concanavalin A or wheat germ agglutinin. However, Schrier et al discloses concanavalin A as being a binder lectin for *Pseudomonas aeruginosa* (Col. 10 line 67 and Col.11 line 13). Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to use concanavalin A as the lectin of Gu as taught by Schrier et al as concanavalin A is a known lectin that binds *Pseudomonas aeruginosa*.
3. Claim 36 is rejected under 35 U.S.C. 103(a) as being unpatentable over Gu et al (World Journal of Microbiology and Biotechnology) as applied to claim 1 above, and further in view of Cioanta et al (2002/0082556).
 - m. Regarding claim 36, While Gu substantially discloses the apparatus as claimed such as inhibition of bacterial attachment to steel (page 174), it does not disclose the catheter being composed partially of titanium or stainless steel. However, Cioanta discloses stainless steel as a catheter material that can utilize a material to inhibit formation of biofilms (paragraphs 102 and 121). Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to use the biofilm of Gu with a stainless steel catheter as there is only the expectation of reducing biofilm formation upon the stainless steel catheter.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to BRADLEY J. OSINSKI whose telephone number is (571)270-3640. The examiner can normally be reached on M-Th 8AM-5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kevin Simons can be reached on (571)272-4965. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
